franciscobatista.com

Data Scientist & Business Strategy Analyst combining technical rigor with commercial acumen. Proven track record in Business Intelligence, identifying and quantifying substantial revenue leakage with direct P&L impact. Skilled in SQL, Python, and Power BI for advanced client segmentation and process optimization. I leverage a dual background (BSc Data Science + Master in Management) to bridge the gap between complex data analysis and strategic business objectives. Trilingual fluency (English, Spanish, Portuguese).

EDUCATION

PROFESSIONAL EXPERIENCE

NetJets Europe

Lisbon, Portugal

- *Business Analyst Intern, Business Intelligence – Sales & Strategy* July 2024 – October 2024
 - Automated a manual inventory reconciliation process using SQL and Python, saving approximately 10 hours of work per week and improving data accuracy.
 - Identifies and quantified significant revenue leakage, identifying root causes and presenting actionable insights to senior stakeholders.
 - Developed a client and VIP segmentation platform to identify high-potential prospects, directly supporting new targeted marketing and sales campaigns.

Happy Code Oriente

Lisbon, Portugal

- *Programming and Computer Science Teacher* July 2023 – July 2024
 - Taught programming fundamentals (Python, Scratch, and basic algorithms) to 50+ students aged 6–16, adapting lessons to individual learning speeds and abilities.
 - Designed and delivered project-based learning modules, improving students' problem-solving and logical thinking.

LEADERSHIP AND PROJECTS

NOVAe

- *Co-founder and Director of Marketing*
 - Co-founded the university's first entrepreneurship hub, defining the core strategy and recruiting the founding team.
 - Directed all digital marketing and event promotion, growing the hub to 20+ members and securing key industry speakers within the first year.
