Business Intelligence and Strategy Analyst with experience in the aviation industry (NetJets), where I identified and quantified substantial same-year contract revenue losses with direct business impact. Skilled in SQL, Python, and Power BI for client segmentation and process optimization. I combine a BSc in Data Science with a Master in Management to connect technical analysis with business objectives. Trilingual fluency (English, Spanish, Portuguese).

EDUCATION

Universidad Carlos III de Madrid

PROFESSIONAL EXPERIENCE

NetJets Europe

Lisbon, Portugal

- *Business Analyst Intern, Business Intelligence – Sales & Strategy* July 2024 – October 2024
 - Automated a manual inventory reconciliation process using SQL and Python, saving approximately 10 hours of work per week and improving data accuracy.
 - Analysed and quantified a significant amount in revenue losses, identifying root causes and presenting actionable insights to senior stakeholders.
 - Developed a client and VIP segmentation platform to identify high-potential prospects, directly supporting new targeted marketing and sales campaigns.

Happy Code Oriente

Lisbon, Portugal

- *Programming and Informatics Teacher, Pedagogical* July 2023 – July 2024
 - Taught programming fundamentals (Python, Scratch, and basic algorithms) to 50+ students aged 6–16, adapting lessons to individual learning speeds and abilities.
 - Designed and delivered project-based learning modules, improving students' problem-solving and logical thinking.

LEADERSHIP AND PROJECTS

NOVAe

- *Co-founder and Director of Marketing*
 - Co-founded the university's first entrepreneurship hub, defining the core strategy and recruiting the founding team.
 - Directed all digital marketing and event promotion, growing the hub to 20+ members and securing key industry speakers within the first year

SKILLS

- **Languages:** Portuguese (*Native*); Spanish (Full Fluency DELE C1); English (*Professional Fluency*)
- **Computer:** Programming & Databases (Python, R, SQL, Snowflake Databases, MongoDB); BI & Visualization (Power BI/Tableau, Microsoft Excel); Platforms & Tools (Databricks, Salesforce, Jupyter Labs, Anaconda, Git Repositories)
