NOVA Information Management School

BSc in Data Science

Lisbon, Portugal

2022 – 2025

- **Grade:** 15/20
- **Focus:** Statistics, Machine Learning, Deep Learning, Business Intelligence.
- **Technical Coursework:** Machine Learning, Statistics, Econometrics, Algorithm Design.

PROFESSIONAL EXPERIENCE

NetJets Europe

Business Analyst Intern, Business Intelligence – Sales & Strategy

Lisbon, Portugal

July 2024 – Oct 2024

- Engineered an automated inventory reconciliation pipeline using **SQL** and **Python**, reducing manual operational load by 25% (10+ hours/week) and significantly mitigating data integrity risks.
- Conducted forensic data analysis to quantify substantial revenue leakage; diagnosed root causes and presented remediation strategies to senior leadership, directly improving unit economics.
- Developed a proprietary VIP client segmentation algorithm (Clustering/ML) to identify High-Net-Worth Individuals (HNWI), optimizing capital allocation for targeted sales campaigns.

Happy Code Oriente

Programming and Computer Science Instructor

Lisbon, Portugal

July 2023 – July 2024

- Directed the delivery of technical curriculum (Python, Algorithms) to 50+ students, refining communication skills essential for translating complex technical concepts to non-technical audiences.
- Designed and delivered project-based learning modules, enhancing students' logical thinking and problem-solving capabilities.

LEADERSHIP & PROJECTS

NOVAe – Entrepreneurship Hub

Co-Founder and Director of Marketing

Lisbon, Portugal

2023 – 2024

- Co-founded the university's premier entrepreneurship hub; defined strategic vision, governance structure, and executed a recruitment drive to assemble a high-performance founding team.
- Spearheaded digital marketing and stakeholder management strategies, growing membership to 20+ active members and securing partnerships with key industry speakers.

SKILLS & INTERESTS
